

# Bibliography of the Prehistory and the Early Dynastic Period of Egypt and Northern Sudan

## 2015 Addition

Stan Hendrickx, Hasselt University – PXL, Hasselt, Belgium

Wouter Claes, Royal Museums of Art and History, Brussels, Belgium

The present bibliographical list is a continuation of HENDRICKX, S., *Analytical Bibliography of the Prehistory and the Early Dynastic Period of Egypt and Northern Sudan*. Egyptian Prehistory Monographs 1, Leuven, 1995. Previous additions have been published yearly in Archéo-Nil since 1996. The numbering is continued from the original volume and the previous additions. Encyclopaedic works and small notes relating to recent archaeological activities have been treated as separate entries, which of course enlarges the corpus considerably, but proved to be useful with regard to the site register.

Off-prints, lists of publications or other bibliographical information were kindly put at our disposal by: Alain Anselin, John Baines, Eliot Braun, Marcelo Campagno, Krzysztof Ciałowicz, John Darnell, Frank Förster, Renée Friedman, Gwenola Graff, Fred Hardtke, Ulrich Hartung, Tom Heagy, Dirk Huyge, Mariusz Jucha, Robert Kuhn, Jean-Loïc Le Quellec, Agnieszka Mączyńska, Franck Monnier, Vera Müller, Jens Notroff, Ilona Regulski, Heiko Riemer, Alice Stevenson, Per Storemyr, Pierre Tallet, Yann Tristant and Wim Van Neer.

Additions to this bibliography will continue to be published yearly in Archéo-Nil. Therefore, it would be most useful if scholars would send their publication lists, off-prints and additions or corrections to the author:
